

10.3.4 Table Character Set and Collation	1848
10.3.5 Column Character Set and Collation	1848
10.3.6 Character String Literal Character Set and Collation	1850
10.3.7 The National Character Set	1851
10.3.8 Character Set Introducers	1852
10.3.9 Examples of Character Set and Collation Assignment	1854
10.3.10 Compatibility with Other DBMSs	1855
10.4 Connection Character Sets and Collations	1855
10.5 Configuring Application Character Set and Collation	1861
10.6 Error Message Character Set	1863
10.7 Column Character Set Conversion	1864
10.8 Collation Issues	1865
10.8.1 Using COLLATE in SQL Statements	1865
10.8.2 COLLATE Clause Precedence	1866
10.8.3 Character Set and Collation Compatibility	1866
10.8.4 Collation Coercibility in Expressions	1866
10.8.5 The binary Collation Compared to _bin Collations	1868
10.8.6 Examples of the Effect of Collation	1870
10.8.7 Using Collation in INFORMATION_SCHEMA Searches	1872
10.9 Unicode Support	1874
10.9.1 The utf8mb4 Character Set (4-Byte UTF-8 Unicode Encoding)	1875
10.9.2 The utf8mb3 Character Set (3-Byte UTF-8 Unicode Encoding)	1876
10.9.3 The utf8 Character Set (Alias for utf8mb3)	1877
10.9.4 The ucs2 Character Set (UCS-2 Unicode Encoding)	1877
10.9.5 The utf16 Character Set (UTF-16 Unicode Encoding)	1877
10.9.6 The utf16le Character Set (UTF-16LE Unicode Encoding)	1878
10.9.7 The utf32 Character Set (UTF-32 Unicode Encoding)	1878
10.9.8 Converting Between 3-Byte and 4-Byte Unicode Character Sets	1878
10.10 Supported Character Sets and Collations	1881
10.10.1 Unicode Character Sets	1882
10.10.2 West European Character Sets	1889
10.10.3 Central European Character Sets	1890
10.10.4 South European and Middle East Character Sets	1891
10.10.5 Baltic Character Sets	1892
10.10.6 Cyrillic Character Sets	1892
10.10.7 Asian Character Sets	1893
10.10.8 The Binary Character Set	1897
10.11 Restrictions on Character Sets	1898
10.12 Setting the Error Message Language	1899
10.13 Adding a Character Set	1900
10.13.1 Character Definition Arrays	1902
10.13.2 String Collating Support for Complex Character Sets	1902
10.13.3 Multi-Byte Character Support for Complex Character Sets	1903
10.14 Adding a Collation to a Character Set	1903
10.14.1 Collation Implementation Types	1904
10.14.2 Choosing a Collation ID	1907
10.14.3 Adding a Simple Collation to an 8-Bit Character Set	1908
10.14.4 Adding a UCA Collation to a Unicode Character Set	1909
10.15 Character Set Configuration	1916
10.16 MySQL Server Locale Support	1917
11 Data Types	1923
11.1 Numeric Data Types	1924
11.1.1 Numeric Data Type Syntax	1924
